A Living Curriculum
An Evolving Organization
A Brand with a Purpose

Green School has a unique learning programme and a ‘living curriculum’. We have a beautiful variety of audiences, stories and imagery in our ecosystem.

The Green School core mission, purpose, values, personality and tone constitute the brand DNA.

These come together to create the brand framework, within which each Green School will then have the freedom to develop their campus, program and culture - unique to themselves and relevant to their target audiences.

Communicating with one voice gives us greater impact as a Green School movement. It allows us to better share the Green School story, generate awareness, and manage reputation. The Green School brand is much more than the logo; it is our consistent promise of nurturing a global community of learners, making our world sustainable.

logo

logo

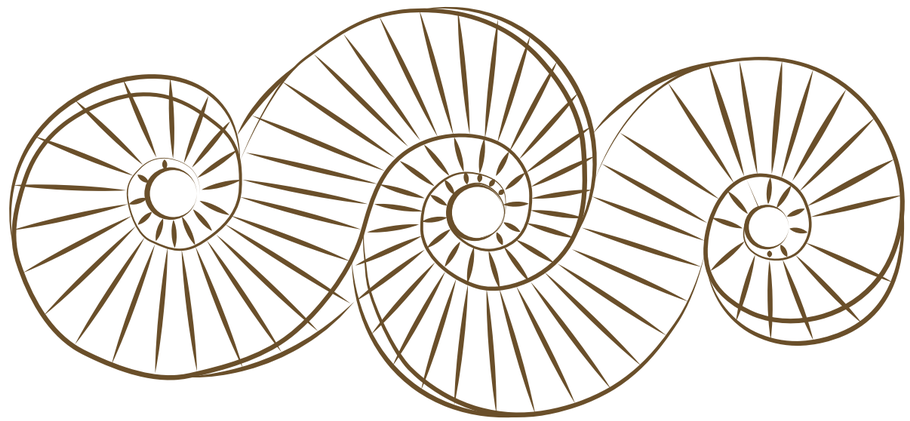
global logo

The Green School logo features a graphic of the Heart of School at Green School Bali - the heart and starting point for the entire Green School family.

This is the mandatory logo icon for all Green Schools.

Do not recreate any of the elements and always use the supplied artwork files.



green school

green school

logo

placement & variations

The logo should always have space to breathe. Clear space is the area surrounding our logo that must be kept free of any text or graphic elements.

Smallest scalable size:
100 pixels wide/0.35 inch wide/0.85 centimeter wide.

green school

logo

icon family

Green School Bali programs and social enterprises may be replicated across multiple Green School locations.

New logo's cannot be created for any of these entities. However, they can have their own icon.

The creation of new Icons for these entities is permissible to keep visual language and naming conventions relevant to local context; **however, the Green School logo must be part of the lock-up.**

Independent logos or icons cannot be created. Please request the GS Marketing team to guide the endeavour.

green school

logo

icon family applications

A program or social enterprise at a Green School can have its own icon, based on the guidelines shared in the preceding pages.

The GS school Logo must be part of the lock up.

EXAMPLE: The Bridge at Green School Bali, the Parent co-learning space, can not have its own logo. It can have an icon with the GSB logo in a lock as demonstrated to the right hand side.

core colours

Our brand is underpinned with a colour palette designed to be natural, modern and distinctive.

Different combinations of colour can dramatically change the tone and appearance of a document so it is important to consider how they work together.

To help achieve greater brand recognition it is important that our colour palette is applied consistently.

secondary colours

The colour palette will evolve over time.

Like nature, it is never static and changes with the seasons.

While we will have some core colours for the brand, we will embrace adding and removing colours from the palette as the brand evolves.

Photography

story-telling

All imagery we use should tell a story that engages the viewer. It could

inform excite activate inspire

.... but it has to elicit positive emotion based on the story we are telling.

green school

Photography

lighting

All imagery should preferably be using natural day light, and without filters.

Green School visuals should all fall into the hashtag #nofilter.

green school

Photography

style

Green School employs
“moment based” photography

Capture a moment in the day of the school, whether student, educator, community, campus or cause.

green school

Photography

brand composition

Bold use of open space has an inspiring and “wow” effect on the viewer especially with our nature-centric campuses, one a aspect of our brand edge.

green school

Photography

colour

While we endeavor to create an authentic and relatable feel with realistic lighting, we also want to depict color as it manifests itself in the world around us – the real & vibrant colors present in the

the natural environment
the community around us
the celebrations & festivities

And while doing so, we must continue to apply the #nofilter philosophy.

green school

Photography

location

Capture variety of locations where learning takes place, keeping the focus on the moment, but shifting contexts.

green school

photography

watch-outs

Examples of of what photography NOT to use.

Avoid low resolution photos

Do not take photos in hard light, which creates dark shadows on subjects

Do not over saturate the image

Avoid overly dramatic lighting

Do not use filter overlayed on images

Do not use vignette to create emphasis

In composition, if the student is taking up large portion of frame, they should not be out-of-focus. Crop photos such that in-focus subject dominates

Do not use a black and white treatment

iconography

Icons are symbols that help users identify and interact with our programs, draw attention to features, and guide a user through content, without relying on a written language.

Due to the growing occurrence of displays and the global reach of products, icons are critical to a positive and consistent user experience.

illustration

Illustration can help bring to life the unique, beautiful, nature inspired environments of Green Schools.

This is a secondary option to using photography. Illustration is only used to emphasis a specific message. This can appear only in 2 contexts - School site, learning environments and activities.

Apply this style when illustrating our campus geography and placement. Always a birds eye view / satalitte persective. Also a combination of the stroke style and solid shapes. Keep our colour palette and solid shapes limited. Nature is always prominent.
